Work Experience

Software Development Engineer @ Zinedu

Jan 2021 - Present // Noida, India

- ▶ Single handedly developing and managing the front-end of the web app by integrating the Django Rest APIs.
- ▶ Work with a variety of different languages and frameworks such as JavaScript, TypeScript, React, HTML, CSS etc.
- ▶ Communicate and collaborate with multi-disciplinary teams of engineers, designers and stakeholders on a daily basis.

Software Developer @ Gandhi Canvas Privited Limited

Jul 2020 - Dec 2020 // New Delhi, India

- ▶ Developed and shipped highly interactive in-house web applications primarily using HTML, CSS, JavaScript, Flask and jQuery.
- ▶ Managed and set up databases for client records along side testing sites in various browsers and devices to ensure cross-browser compatibility and mobile responsiveness.

Projects

Love Meter

Web app built with React and Django REST APIs for calculating attraction percentage between two people. <https://lovemeters.herokuapp.com/> .

Video Aggregator

A Django rendering web app where the viewers get paid for watching videos and also allows users to promote content online.
<https://promoters.pythonanywhere.com/>.

Freelance

Made several websites for clients according to their requirement as a freelancer. Some of them are <https://www.galaxycarcovers.com/> and <https://www.vlastrology.com/> .
